

TRAILHEAD "TO THE SEA"

(words & music by Tobias Panwitz)

verse 1

You told me to look out for you one morning in May
And I kept scanning the horizon throughout June and July each day
And just when I forgot to keep in mind that hope is the last thing to stay
You are standing with that melancholic smile of yours in the door way

verse 2

Well your hair is shorter now
And I can't believe your beauty even grew
And I thought I had you out of my system
But I have to think anew
It was nice and easy all the while
To think that you were gone and we were through
And now you're telling me how glad you are to see me

chorus

I just want to take you, girl, up to the sea
That's the place for us to be
And in a single motion show you what you mean to me
Taking in everything we see

solo G C G C G C Am C Em C G

verse 3

There's a perfect line
Where your forehead bows to turn into your nose
And it's hard to concentrate on what you say
Because that line is very close
I imagine it in contact with my fingers and my lips
And maybe that shows
Cause suddenly you're speaking only with your eyes

chorus (2 times)

I just want to take you ..
Taking in everything we see
Show you what you mean to me
Taking in everything we see
Everything we see
Everything we see
Everything we see
