

In This Place

words & music: Tobias Panwitz

I turn off from the highway
Waiting for your call to come in
I got bad reception
So I guess that phone's not gonna ring

And it's really just a couple days
Till I find me back in your embrace

I'm stuck in a country
That I can cross in half a day
I just go in circles
Cause you are still a week away

And it's really just a couple days
Till I find me in your sweet embrace
Until then it's hard to find
Some sort of peace of mind in this place

And the sun is all out
And it's nice here in the shade
And the birds do their best
And the sky is looking great
Yeah and even the cows on the meadows
Are at peace with their fate

But man I'm feeling restless
It occurred to me today
We're just wasting time here
Letting things get in our way
